

BUNKER

BIO

BUNKER is a modern rock band that revolves around making passionate and pure music! With influences from various 90's and 00's bands such as Oasis, Nirvana and Arctic Monkeys, BUNKER creates a sound that will leave you on the edge of your seat!

By incorporating their inspirations from earlier decades into modern rock, the band has a unique yet powerful sound! The rock band from West Brabant consists of 5 young guys who all have the same vision: **to convince as many people as possible of their music!**

The band was formed in 2021 in Bergen Op Zoom and consists of Joep Wille (vocals, songwriter), Skip Verhoeven (lead guitar), Damian Kunath (Drums), Ian Groeneweg (bass guitar) and Liam Goddrie (rhythm guitar). All the band members are experienced musicians and have performed a lot. In 2022, for example, BUNKER participated in "De Grote Prijs van Dordt" in Bibelot and in the band competition "Doe Maar Vet", where they won both the jury and the audience award, which means they can perform at beautiful festivals again! They also played in De Helling in Utrecht and in many local music cafes!

*"BUNKER
creates a wall
of sound with
their modern
rock!"*
